VALUE

WHO WE ARE ?

Our story began in 1982, when we were a trading company specialized in importing and trading sanitary ware. In 2018, our trading journey ended and Value Company was established in Egypt.

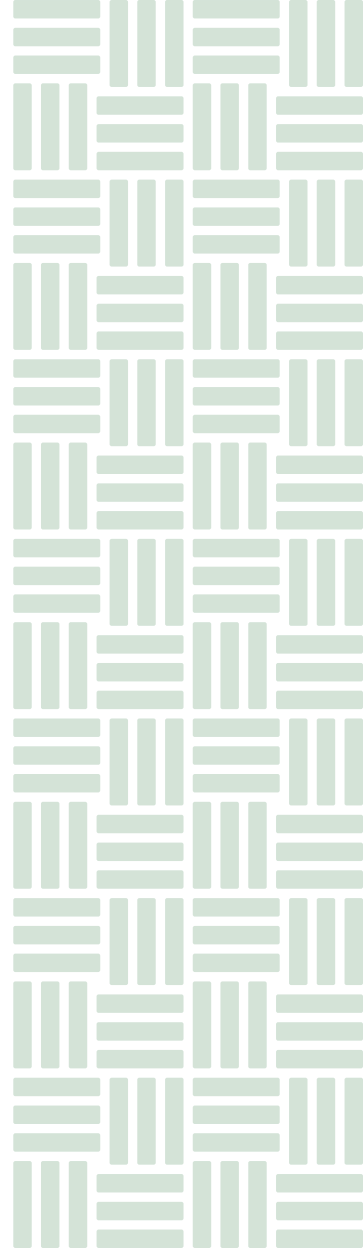

Value is a leading Egyptian company specialized in manufacturing mixers and sanitary ware, working to provide innovative and practical solutions that suit the various needs of the real estate, commercial and residential markets.

We passionately develop products that combine modern design, superior performance and long-term reliability, making us the first choice for projects that require quality and trust.

The company was established to be a trusted partner for developers, investors and distributors in Egypt and the region.

Our slogan... **DESIGNED FOR LIFETIME**

"We are equipped to address the challenges ahead, and we aim to pave the way for the future of modern living."

Designed to shine.
Built to last.

Our Vision

Is to be the leading Egyptian manufacturers in faucets and brass fittings, delivering world-class products to local, regional, and international markets. We aim to safeguard water as a vital, finite resource, ensuring its availability for future generations while enhancing the well-being of communities worldwide.

Our Mission

Driven by a deep respect for water, we are committed to providing innovative, sustainable solutions that promote water conservation, efficiency, and the long-term functionality of modern living spaces.

VALUE...DESIGNED FOR LIFETIME

Brass Fittings

Brass Fittings play a vital role in transforming bathrooms and kitchens into practical and comfortable spaces.

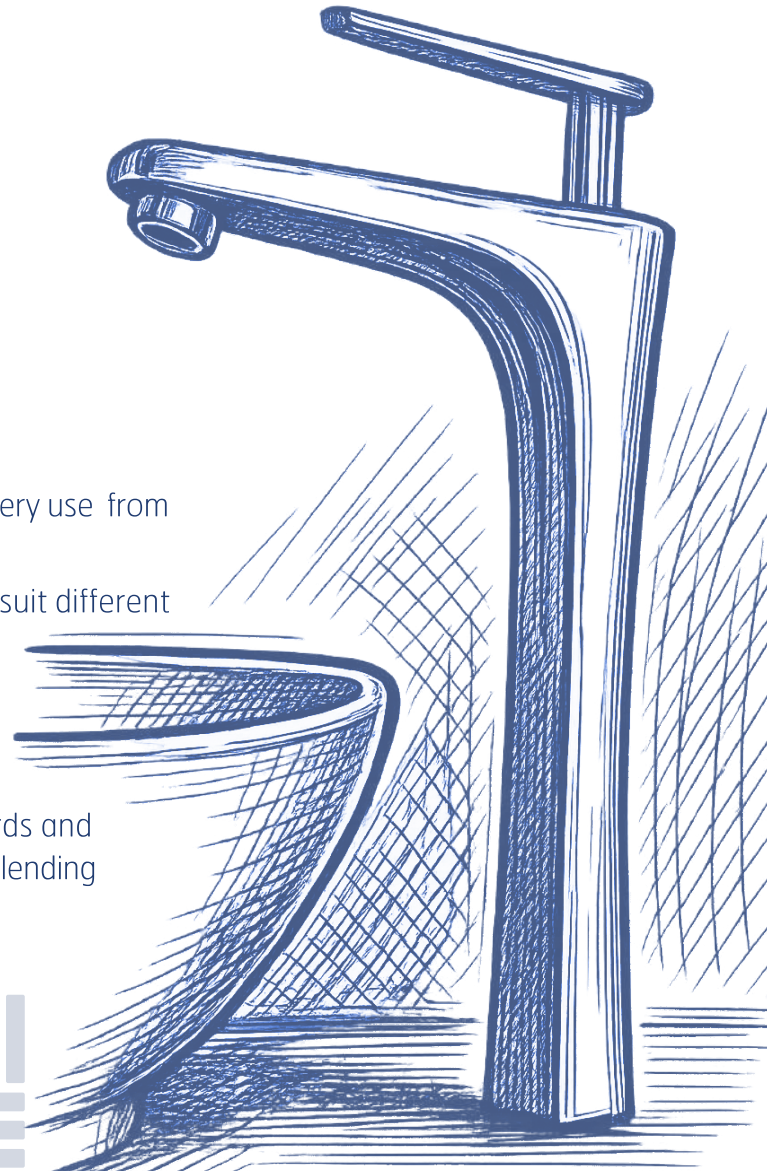

They serve as the essential medium that delivers water to users, fulfilling their daily need for cleanliness and a sense of relief after the stresses of life.

With this in mind, we offer a complete range of mixers designed to cover every use from handwashing to showering .

Our product lines include versatile brass mixers crafted with precision to suit different tastes and needs.

Striving for excellence, we also manufacture kitchen mixers that combine modern aesthetics with practical performance.

All our products are developed according to the highest quality standards and incorporate the latest technology to ensure outstanding user experience blending efficiency, elegance, and durability.

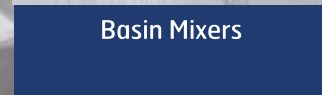

SHOWER

Built-in Thermostatic Shower Mixer with 3-4 Stop Outlet

We care about our customers, and we care about every detail that causes comfort and relaxation, so we produced Built-in Thermostatic Shower Mixers, with the highest quality.

Sedal Thermostatic cartridge

FEATURING

- High quality plastic materials
- High performance European thermostatic element
- Robust design
- ø 34 mm diameter
- Pressure resistant design

BENEFITS

- Deliver a consistent water temperature that is automatically balanced for the user.
- EN-1111 standard compliant
- NF-1111 standard compliant
- Withstands more than 35 bars
- NSF certified

SHAPE YOUR SHOWER

DEFINE YOUR EXPERIENCE

WHERE INNOVATION
MEETS PERFORMANCE.

Water Saving
Clean & Hygienic
Easy Maintenance
Self-Adjusting

ELECTRONIC BASIN MIXERS

Our electronic basin mixers combine cutting-edge sensor technology with sleek, modern design, delivering a completely touch-free, hygienic experience.

Ideal for public and high-traffic areas, they reduce water consumption significantly by activating only when needed, ensuring maximum efficiency and environmental responsibility.

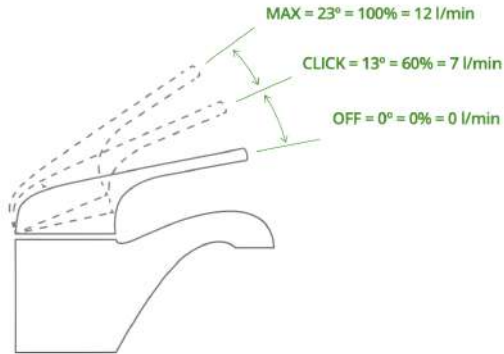

Electronic system powered by batteries and power supply for infrared faucet to be installed on the body's faucet.

CARTRIDGES RANGE

VALUE use Sedal Cartridges , in order to provide the best quality to our customers.

INNOVATION THAT LASTS BEYOND TODAY

Features

FLOW LIMITER

Limit maximum water flow for water saving.

DUE TECHNOLOGY

Water flow optimization thanks to a mid-way stop at 60% of the lever stroke that provides up to 50% water saving.

TEMPERATURE LIMITER FUNCTION (TR)

Optional ring called TR that allows limiting maximum temperature in 10 selectable stops (every 9°), enabling an anti-scalding safety feature.

ECO

Cartridges identified with an ECO icon offer at least one environmental sustainability feature.

COLD

Energy saving feature thanks to the internal design of the cartridge, flowing cold water when the lever is centered.

TEMPERATURE & FLOW LIMITER FUNCTION (TRN)

The flow can be limited thanks to the screw located in the cartridge lever. By turning the screw, the flow obtained will be reduced, saving up to 22% of daily water consumption.

Quality

You can always be sure of the quality and durability of our products.

From initial design and raw material, to testing and aftercare

We Thoroughly lab-test our products

National Center for Housing and Building Research Tests

- Hydrostatic pressure test.
- Basin mixer flow rate test.
- Chemical analysis test for Brass.
- Chemical analysis of Brass samples.

Quality Management System
ISO 9001 accredited.

Quality Management System
ISO 45001 accredited.

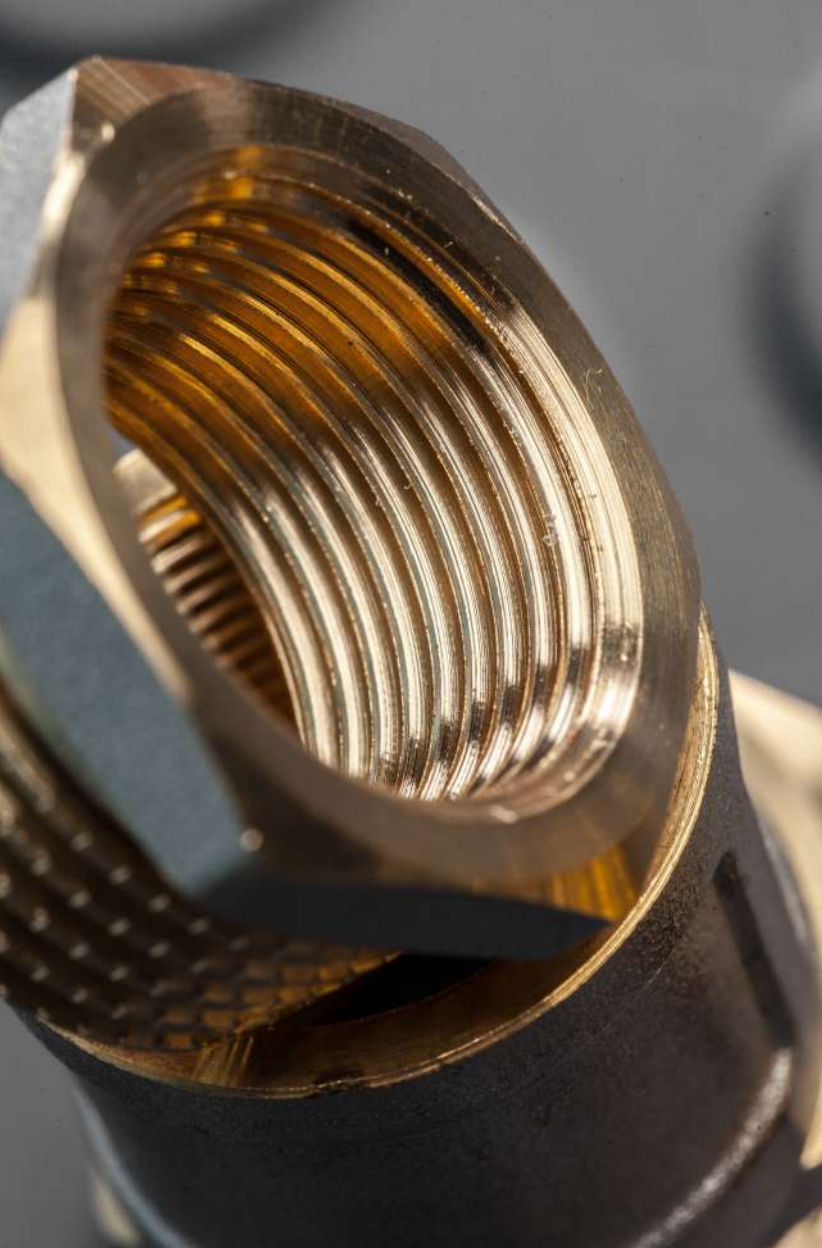

Maintenance Durability Guarantee

Alongside selling durable
products we offer an efficient
after sales service.

VALUE guarantees products to
be free from all manufacturing
defects for a period of 5 years
from the date of purchase.

5 YEAR
GUARANTEE
